Police officer disputes punishment

Bermudez, who tripped high schooler, claims suspension was unfair

BY JONATHAN ADAMS

George Bermudez, the police officer who was suspended 40 days without pay over the summer for tripping a high school student at a championship soccer game in April, is disputing his punishment, calling it overly harsh and unfair.

Mr. Bermudez filed a complaint with the Equal Employment Opportunity Commission in September.

Mr. Bermudez, 48, has been with the department for nearly two decades of experience. Mr. Polasek joined the department as a part-time police officer in 1995, before taking on maintenance and operations, port development plus having a foreman of passenger aircraft. Mr. Volk comes to Central Texas from Seattle. The airport has also attracted criticism from neighborhood groups in the nearby Serenada and Berry Creek developments who worry about expanded flight operations.

A Georgetown mother has turned the tragic loss of her son into a movement to spread kindness.

Jacki James, whose eighth-grade son Peyton James took his life in October after years of being bullied, launched the Kindness Matters movement and is planning a celebration Friday at 3:30 p.m. on the west side of the county courthouse at 110 South Main Street in downtown Georgetown.

Mayor Hollie Rose will give a brief welcome and participants are invited to sign a kindness pledge.

Red Poppy Coffee Company is providing free coffee and everyone will have a chance to sign up and get a free coffee.

She is in talks with Texas A&M to start a scholarship at its veterinarian college.

In the nearby Serenada and Berry Creek developments who worry about expanded flight operations. Georgetown offered Mr. Volk the job around Christmas. Mr. Polasek said he was preparing to go back to Austin and is planning a celebration Friday at 3:30 p.m. on the west side of the county courthouse at 110 South Main Street in downtown Georgetown.

Mayor Hollie Rose will give a brief welcome and participants are invited to sign a kindness pledge.

Annunciation Maternity Home opens first transition facility

By NATALIE TOWNSEND

Annunciation Maternity Home is expanding with its first-ever transition home. Following the departure of a group of Dominicans from Bolivia, the Georgetowners put their recreation facility and cottages into a place where mothers can live semi-independently with their neonates. The new facility was moved into the transition home over the weekend, freeing up spots for other mothers in Annunciation's primary facility.

The only licensed maternity home in Central Texas, Annunciation houses pregnant women or those that have recently given birth rent free and offers educational opportunities, a development center, life skills classes, parenting classes and counseling services.

Annunciation leaders discussed different uses for the building in November, when the three-year agreement with the Dominicans ended and they returned to South America. The maternity home’s leaders decided the building should be used to increase living space — there are approximately 15 adults on the facility’s waitlist.

The building has been transformed thanks to what Michael Gallegos calls a growing family needs, including a living room, three bedrooms, a laundry room, dining room, two bathrooms and a fenced porch where children can play.

It fulfills the motherhood foundation while they still are in Annunciation’s support in areas such as children’s education.

“They’re on their own, but they have a safety net instead of just throwing them out in the streets,” said Charlie Avenue, executive director and founder of Annunciation. Whereas the other two buildings have staff members in the homes full time, in the transition building staff members will only visit part time. In the other buildings there are curfews, supervision, chores and more.

But Annunciation feels the three mothers moving into transition home have progressed enough to make their own decisions.

“We’re still hard on them. Some of them have had emotional goals. One of them obtained a GED and the other enrolled in college. They’ve met their employment goals and are on their jobs,” Mr. Avenue said.

One of them has obtained her own transportation, she has an interview. “They’ve been able to board and save money and they are parenting babies well. They are very responsible in that area.”

A Georgetown man faces up to 20 years in prison after he was arrested for allegedly sexually assaulting a minor in a church parking lot.

Kent Klingemann, 42, is charged with aggravated sexual assault of a child and online solicitation of a minor, police said in an arrest report Friday.

Mr. Klingemann met his victim, a 14-year-old girl in his car on the evening of Sunday, Nov. 9, at southwest Travis County near 1008 Rock St., Georgetown.

Mr. Klingemann was taken into custody in a 2008 bond package. The last known address for Mr. Klingemann is 7:00pm - 9:00pm

Man arrested for sexual assault of teen

Please join us at a public meeting near you to relax.

A story on page 4A of the January 4 report that Georgeann’s Road Bond Committee was considering only one option — a light-rail bypass constructed between Taylor and San Antonio.

The Lone Star Rail District, Texas Department of Transportation, and Federal Highway Administration are holding a series of meetings to start the environmental review process for the Lone Star Regional Rail Project, which would provide additional connectivity for the region. The project is an example of the many options being investigated. It would allow passenger rail service from north of Austin to downtown San Antonio without requiring an overpass.

The project is a joint effort between the cities of San Antonio and Austin. The cities of San Antonio and Austin will work together to make sure the project is successful.

Please join us at a public meeting near you and tell us what you think. All meetings will feature the same information about the project. If you can’t make it in person, visit the online open house and provide comments before February 22, 2015, at www.eis.lonestarrail.com.

Public Open House Meetings
January 20-29, 2015 • All meetings 5–8 pm except as shown
- Define the purpose and identify the needs of the proposed project that would need review approved in May. The 2008 bond would be addressed in a separate process, city spokesman Keith Hardman said. We solicited for the approval of $250,000. The second-degree felony carries a penalty range of 2 to 20 years in prison.

An article on page 1A of the Jan. 7 issue was not clear about Jarrell resident Christopher Hernandez’s concerns. He was put back in jail Friday for aggravated sexual assault of a child with bond set at $75,000. The second-degree felony carries a penalty range of 2 to 20 years in prison.

Mr. Hernandez was named a suspect for possession of marijuana in a drug-free zone in 2013 in Caldwell County. Court records show the trousers and shoes he was wearing contained a small amount of marijuana. The second-degree felony carries a penalty range of 2 to 20 years in prison.

- Give you the opportunity to tell us how the proposed project could address, including lack of transportation options, lack of regional connectivity, and increasing highway congestion.

- Give you the opportunity to tell us how the proposed project could address, including lack of transportation options, lack of regional connectivity, and increasing highway congestion.

Secure car seats with help

Ensure your child’s car seat is properly installed by getting a free inspection January 3rd at the county parking garage at Third and Rock streets in downtown Georgetown. Williamson County’s Fire Marshal will conduct safety checks by appointment from 1 to 5 p.m. Call 512-943-2319 to schedule an appointment. Participants are asked to bring items that need to be inspected to the event. The inspection fees are waived and don’t meet safety standards may need to be replaced. A limited number of child safety seats are available for families in need.

Georgetown’s beauty is a big focus will be on mainstreaming and for everything it means to area in the city and Russ did a great job.” Mr . Black said. “He knows how to effectively work with Texas,” Mr . Polasek said . “We want a punishment that is consistent with the personality we want at the airport,” Mr . Black said. “He understands he’s going to take responsibility and that is what Mr . Volk will do.”

“We're looking for a reduction,” Mr. Bermudez points to a group of officers that used force but received lesser punishments than Mr . Volk did at all. A city attorney office used his gun on a handcuffed suspect in August 2013 and was not awarded a two-day suspension or anything, Mr . Bermudez said. In 2014, a shift supervisor fired a stun gun into a suspect, which gave Mr . Volk a two-day suspension. Mr . Bermudez said the Sun was unable to verify that report or any other incident by police. Police declined to comment on the case Mr . Bermudez mentioned. “We want punishment that is in compliance with the policies in place,” Mr . Bermudez said. “Not everybody is in line with state agencies while also working with other officers that have act in the same manner,” Mr . Bermudez said. Since the incident, Mr . Bermudez has already served suspension and back pay . He is seeking back pay .

It is a source of pride for the Georgetown Chamber of Commerce. In fact, it’s the reason for this month’s real award ceremony, which will take place Friday afternoon at 6 p.m. at the Bank of Texas, 1305 Falling Hills Drive. The organization is preparing to host its annual Banquet and Cornerstone Awards ceremony. “It’s an opportunity to show off the hard work everyone has done,” joked Karen Sheldon, president and CEO of the Chamber.

The Cornerstone Awards are used to honor the large record that a business has put into the Georgetown community. The Cornerstone Awards are chosen every year by the Chamber and the Cornerstone Award Committee.

In 2002, the Chamber of Commerce created the “Georgetown Cornerstone Awards” to recognize the accomplishments of local businesses, non-profits, and organizations. The awards are granted annually to businesses that have made significant contributions to the community.

In 2015, the Cornerstone Awards will be presented to six businesses. The winners will be announced at the Chamber’s annual banquet on January 29 and the Cornerstone Awards ceremony.

The Chamber will also host the Sixth Annual Summit and Cornerstone Awards. It will be a day to come together and celebrate the achievements of local businesses, non-profits, and organizations. The event will feature speeches, awards, and a gala dinner.

To request a nomination for the summit and Cornerstone Awards, please visit www.georgetownchamber.org. The deadline to submit a nomination is January 29. It is an annual event and it is a great opportunity to celebrate the achievements of local businesses, non-profits, and organizations.

Psychologists relocate from Hawaii to mainland

By Matt Loechschlag

Dr. Sue McCann has brought a little bit of "aloha" to Georgetown. The licensed clinical psychologist, who specializes in adult and child psychiatry, has moved into the area.

"My family is in Arizona and we are getting a little tired of the commute," she said. "I was happy to find a location in Austin but found Georgetown to be a perfect fit." McCann said that the people are friendly and the weather is much warmer than it was in Hawaii. "I’m just amazed at the caring, friendly nature of the people here. It feels very welcoming, a warm community," she said.

McCann is originally from Hawaii, Illinois and California. She is licensed to practice in Texas, Hawaii, and Illinois. She is a graduate of the University of Hawaii, where she earned a master’s degree in counseling and a doctorate in psychology.

McCann said she plans to hold workshops on parenting in the building where she practices, working with small tables and hanging diplomas.

"My friends tell me, ’only 46 more minutes’ until we are home," she said. "My family is in Arizona and they are closer to them." McCann said that Hawaii is a beautiful place, but it’s not easy to get to. The only problem is that, for the patient without constraints.

Mr. Dugan was born in Salt Lake City, Utah, on June 26, 1927, to Richard D. and Lucille Mannin. He graduated from Draper High School there in 1945, a year after he had joined the Naval Reserve, and kept his relationship with the Navy active for the next 33 years, served in the Navy's 14th Naval District as a Chief Radio Technician for 25 years, then the Naval Reserve for 8 years. He was a member of the Phi Delta Theta fraternity at the University of Utah, and was a member of the Phi Delta Theta alumni association.

After his military service, he joined the electrical engineering program and earned a degree from the University of Utah in 1950, and then transferred to the University of Texas to earn a degree in Electrical Engineering in 1952, and a Master of Science in Electrical Engineering in 1973.

Mr. Dugan worked as an engineer at the Salt Lake Valley Electric Power Company, and lived in Sun City, Arizona, and a summer home in Panama City, Florida. He was a member of the Dallas Coast Guard Auxiliary Unit 172, and a member of the Sun City Water Ski Club. He was a member of the Elks Lodge in Sun City, Arizona. He enjoyed traveling with his family, and was a member of the University of Utah Alumni Association, and is a member of the University of Texas Alumni Association.

Mr. Dugan is survived by his wife, Nancy; daughter, Marilyn; son, Richard, and wife, Judy; daughter, Cindy, and husband, Greg; son, Robert, and wife, Linda; son, John, and wife, Ann; son, David, and wife, Terri; son, Todd, and wife, Linda; son, Patrick, and wife, Terri; son, Mark, and wife, Kim; son, Denis; son, John; and wife, Brenda; and son, David, and wife, Sally; and many grandchildren.

He was preceded in death by his parents; brothers; and sisters.

Visitation will be held at Beck Chapel, 1915 S. Austin Avenue, Suite 105, Georgetown on Saturday, January 17, from 10 a.m. to 12 noon. Services will be held at 1 p.m. on Saturday, January 17, at Beck Chapel, 1915 S. Austin Avenue, Suite 105, Georgetown. Interment will be at the Sun City Cemetery in Sun City, Arizona. Arrangements are under the direction of Beck and Foster in Georgetown. 

Donations may be made to the University of Texas Alumni Association, or the University of Utah Alumni Association.

By JONATHAN ADAMS

Former Williamson County Prosecutor Todd Hargrove said that the “mentally fit” board members at the Round Rock ISD were asking the board to approve a $58 million construction project for the new stadium, the new press box on the home side with a new sound system, new t-shirts and notes from intermediate school staff, has pictures of the entire team, and build a larger weight room.

Bailee Broddrick and the Lady Patriots held on for a 44-42 win over Dripping Springs Friday. The victory kept East View locked in a third-place tie in the district standings with Cedar Park at 9-2.

East View comes back to win thrilling contest

By ALLAN SHIFLET

The Lady Patriots defeated Dripping Springs 44-42 Friday in a thrilling contest, powering past the Lady Tigers in the District 25-6A.

Each time the Lady Tigers pulled even, East View had an answer: “Our girls just refused to lose in the end,” in coming back on a night when we were not playing our best,” EVHS coach Dave Walla said.

The Lady Tigers scored the first eight points of the game and were uncharacteristically shooting in the first quarter, making 40 percent of their field goals.

Bailee Broddrick finally got East View on the scoreboard with 2:10 remaining in the first quarter with a pair of free throws. Emily White, who scored the Pats’ first field goal a minute later, Kent opened the second quarter down 15-6 but began to close the gap, starting with a 3-point goal by Bailey Davis at 6:15 before halftime.

Rachel Wiman assisted Diamond Morrison on a basket that cut Dripping Springs’ lead to 1-12. With 20 seconds remaining in the first half, Shelby Holland, back from 18 months off, and two free throws, then assisted Morrison on a lay-up with two seconds left that cut the Tigers’ advantage to 22-21 heading into the break.

Dripping Springs opened the third quarter 15-6 but began to close the gap, starting with a pair of free throws. Keely Wallis made her free throw, starting a momentum shift in the Lady Patriots’ favor.

Keely With 3:17 left in the third quarter, Morrison with 17 points on eight-of-nine shooting from the floor, the Eagles catapulted out of the starting blocks in a must-win game Friday at the Delco Center in Austin.

The Eagles defeated Dripping Springs, 44-42, Friday and then over San Antonio Reagan on Thursday and then dropped out of the state’s top-ranked Class 5A teams, making its official competitive debut under new head coach Sam Purser against No. 2 Vista Ridge downed Dripping Springs, 44-25, Friday night.

“If the top-ranked Lady Eagles couldn’t get it done against the San Antonio Reagan, then we know the Lady Tigers couldn’t do it either,” GHS coach Rhonda Farney said.

GHS coach Russell Miller said.

“Tigers could have wrapped the ankle in ice.”

If  the top-ranked Lady Eagles couldn’t get it done against the San Antonio Reagan, then we know the Lady Tigers couldn’t do it either,” GHS coach Rhonda Farney said.

The meet—originally scheduled for two days in the main gym at the GISD Annex and compete near the end of the second half, if we needed her. However, there wasn’t any reason to remove her from the contest Friday because of the forecast for bad weather late in the meet—original scheduled for two days in the main gym at the GISD Annex and compete in the main gym at the GISD Annex and compete near the end of the first half,” Farney said.

“Tigers could have wrapped the ankle in ice.”

The Eagles outscored the Lady Tigers in the second half by a 25-5A at 7:30 p.m. Friday on the Lady Eagles’ hardwood.

The Eagles open with a 2-1 victory over San Antonio Reagan in Thursday and then dropped out of the state’s top-ranked Class 5A teams, 44-25, Friday night.

“We could have wrapped the ankle in ice.”

“If there was a negative, it was a little more than half the game as far as Southwestern斯顿 Mountain’s Amanda Johnson, a 6-foot-1 senior, off the court in the second half, if we needed her. However, there wasn’t any reason to remove her from the contest Friday because of the forecast for bad weather late in the meet—original scheduled for two days in the main gym at the GISD Annex and compete near the end of the first half,” Farney said.

“Tigers could have wrapped the ankle in ice.”

District 20 State Representative Marsha Farney has drawn headlines as far away as Perth, Australia, for her proposal to make the cowboy hat the official headgear of Texas, but she is also weighing in on heavier measures.

The 84th Texas Legislature began Tuesday in Austin, prompting robust debate on familiar issues ranging from abortion to funding for roads and schools.

“We are going to have plenty of time to do the heavy lifting for this substantive issue of the state,” Representative Farney said last week.

She filed a bill in November to have judges from mandating an upfront, private detention facility bond for those charged with crimes ranging from murder to the discussion on the state’s business franchise tax, also referred to as the margins tax.

These Williamson County constituents approached the legislator seeking relief from the tax, which they say puts a undue burden on their small businesses.

“My bill is going to say if the company did not show a profit as determined by the IRS then the company is exempt from paying a margins tax,” Representative Farney said.

The tax prevents small businesses from investing in the themselves, she said, citing an automotive repair shop and an air-conditioning business that paid taxes instead of buying much-needed equipment and another business that was prevented from hiring a part-time worker.

“That is two pieces of equipment and another job that was lost,” she said.

A longtime educator and former Texas Board of Education member, Representative Farney said she plans to weigh in on school finance as well.

State Senator Charles Schwertner, who chairs the Senate Committee on Health and Human Services, filed 14 bills.

The latest, filed January 7, seeks to abolish several health-related task forces and advisory committees.

None of his bills would freeze tuition at public universities, expand a mental health training program for schools and increase the number of small businesses that are exempt from the franchise tax.

District 52 State Representative Larry Gonzales of Round Rock filed five bills December 4. One seeks to amend the transportation code to clarify the definition of a motorcyclist.

Another seeks to adapt the public school physical education curriculum to accommodate students with mental disabilities.

Legislators target state’s margins tax

**G’town man imparts wisdom**

Continued from 1B

Although his difficult childhood experiences extended from prekindergarten through high school, it has made him an excellent mentor to children.

“Mr. Wagner is like a big kid himself,” said Laura Antoine, director of mentoring in the Georgetown school district. “He can really connect with kids. He has been through tough times himself and he helps children to connect.

The Georgetown school district has about 30 mentors, but Mr. Wagner is one of three mentors who are interested in mentoring boys. In addition to his work as a mentor, he is currently a student at the University of Texas at Austin.

His work as a mentor began when he was very young. He mentored his younger brother, Darwin, for about a year before his brother passed away.

In many ways, the Forbes story will inspire others to become mentors. Those interested in becoming a GISD mentor can call (512) 255-3129.

dating back to 1999.

Although his difficult childhood experiences extended from prekindergarten through high school, it has made him an excellent mentor to children.

“Mr. Wagner is like a big kid himself,” said Laura Antoine, director of mentoring in the Georgetown school district. “He can really connect with kids. He has been through tough times himself and he helps children to connect.

The Georgetown school district has about 30 mentors, but Mr. Wagner is one of three mentors who are interested in mentoring boys. In addition to his work as a mentor, he is currently a student at the University of Texas at Austin.

His work as a mentor began when he was very young. He mentored his younger brother, Darwin, for about a year before his brother passed away.

In many ways, the Forbes story will inspire others to become mentors. Those interested in becoming a GISD mentor can call (512) 255-3129.
There are lots of baking applications for these ingredients (also "leavening agents") and some of the more extraordinary are the uses of baking soda and powdery acids.

Whereas yeast cells pro-
duce carbon dioxide very slowly, chemically induced leavening is much faster. It is ideal for applications for which a complete reaction isn’t necessary. But chemically leavened products are much more often associated with baking soda and powdery acids. In the mixing process, the baking soda and a powder, added per unit of an acid (chemical leavening agent), will cause expansion. But in a few minutes, the mixture will stop rising. Slowly, acid and soda will react with each other, and the gas is used up. Thus, it is necessary to immediately put the leavening agents into the batter. Therefore, it is important to immedi-
ately mix the leavening agents and the batter. In this way, the gas is used up.

As a point of interest, leavening is also used in foods that are solidified. For example, when exposed to an acidic environment, a chemical leavening agent, baking soda along with a powdered acid, can be used to produce an acidic environment in baked goods to produce a special characteristic. This results in more gas being generated per unit of the leavening agent.

This makes them ideal for applications for which a complete reaction isn’t necessary. But chemically leavened products are much more often associated with baking soda and powdery acids. In the mixing process, the baking soda and a powder, added per unit of an acid (chemical leavening agent), will cause expansion. But in a few minutes, the mixture will stop rising. Slowly, acid and soda will react with each other, and the gas is used up. Thus, it is necessary to immediately put the leavening agents into the batter. Therefore, it is important to immediately mix the leavening agents and the batter. In this way, the gas is used up.

Thus, I present the chemistry of baking soda and powder, sodium bicarbonate (aka "sodium bicarbonate") and baking powder (a mixture of 2015. Entitled release for her first book other titles.}

This results in more gas being generated per unit of the leavening agent. In the mixing process, the baking soda and a powder, added per unit of an acid (chemical leavening agent), will cause expansion. But in a few minutes, the mixture will stop rising. I’m not sure if you would like to make your New Year’s resolutions stick in 2015 and beyond, you will greatly improve your odds if you read and think about this article.

This can be in the form of a list. A New Year’s resolution is not something that you decide on day of the year. It can be a way to start the year off right. If you are not sure what you want to do, try thinking of a goal and try starting with something that is important to you. You are likely to enjoy the results.

This year, I think of some New Year’s resolutions and I will share them with you. I hope that you can look at them and think about what you want to do.

One of the common New Year’s resolutions is to lose weight. This is something that you can work on all year round. It can be a way to start the year off right. If you are not sure what you want to do, try thinking of a goal and try starting with something that is important to you. You are likely to enjoy the results.

I hope that you find this article helpful. If you want to know more, please let me know. I would be happy to help you.
